THIS IS A UNIQUE OPPORTUNITY TO IMPROVE YOUR SKILLS AS A CLINICAL EDUCATOR!

This course will help you to:

- Appreciate the parallels between the characteristics of the practitioner and clinical educator.
- Plan and prepare for students' clinical education experiences.
- Identify student learning needs.
- Design quality learning experiences.
- Implement clinical teaching methods that support ongoing learning
- Provide effective evaluation.
- Identify legal and supervisory implications for clinical educators.
- Manage the student who is demonstrating problem performance or exceptional performance.

For more information, please see next page...

* An adapted version of the APTA Clinical Instructor Credentialing Program

What are other benefits of participating in this course?

- Enhanced knowledge and skills in the provision of clinical education.
- Opportunity to participate in a unique learning experience.
- Career development opportunity within clinical education.
- Opportunity to network with other clinical educators of varied backgrounds and experiences.
- Enhanced skill in supervision and conflict management.
- Have an understanding of and experience with the management of exceptional students and students with problems.
- A manual for you to keep which includes useable tools to support you as a clinical instructor.

More important information about cost and registration:

- McMaster OT & PT Programs are covering the costs for preceptors to attend the course - two trained facilitators, a course manual, breakfast, lunch and snacks for both days will be included
- Because enrollment is limited, we will be drawing names from all that are interested
- Those whose names are drawn will be notified via e-mail and at that time, further details about the CI course will be provided, and a fully refundable deposit to secure a spot will be required
- Those whose names are not drawn will also be notified by e-mail and will be placed on a waiting list
